

YOUR VISION. OUR EXPERTISE.

SAGEHOMES

BUILDING JUST FOR YOU

Sage Homes was founded on a single idea: give families what they want and need—quality homes at affordable prices. Every family deserves a great home. It's where you come to recharge from the hectic pace of today's world and find joy and security in each other's company. We will work with your budget, listen to your dreams, and together we'll build the home that's perfect for you.

STANDING OUT FROM THE COMPETITION

Quality & Affordability.

That's what sets Sage Homes above the rest of the crowd. Our goal is to provide quality homes at affordable prices with outstanding customer service. You'll be amazed at the value you get when you build your home with us. You'll appreciate the care we take with every aspect of your home. We'll make sure everything is done correctly and to your satisfaction.

A HOME YOU'LL LOVE...

At Sage Homes, we have many floor plans for you to begin your dream home with. Whatever your lifestyle or preference, we can help you create a home you'll fall in love with. From a cozy cottage to a rambling two story, we have the size to fit your needs. Together we'll match a home to your needs and desires so you'll have a place to enjoy for years to come.

Months of planning and designing a lovely Sage Home with my mother has finally come to an end. We purchased a lot at Pershing Place, met Sage's Broker, Rebecca Hackworth, and instinctively knew she was the right person to help us achieve a high-quality, custom senior living home. At our first meeting with the Sage Team, we were introduced to the VP, Jason Gaul and Project Manager, Mitch Reiman. We were impressed and certainly appreciated their valuable input. More importantly, they listened to our requests and understood what we wanted to accomplish in obtaining a functional, modern home. We knew early on we shared a common goal for a successful outcome. Mom & I are happy to say they met our expectations. We would highly recommend those 55 and older to consider living in this beautiful community.
